

Angels in Our Town by Julie Haseler Reilly 2022 (copyright)

Well Yasmine, she is a doctor
And Tarak, he's a nurse
They worked so hard to keep us well
Though out that covid curse.
The Para medic teams
That come to our rescue
Deserve a little Christmas
For all the things they do...

**There are angels in our town
There are angels in our town
We give them thanks at Christmas
They keep us safe and sound
There are angels in our town
There are angels in our town
Just take a look and you will see
They're walking all around.**

Bill, he is a policeman
works hard for me and you
And Jane's a fire fighter, look what they've been through
They go where angels fear to tread, they put the fires out
They are so brave and selfless
It makes you want to shout...

**There are angels in our town
There are angels in our town
We give them thanks at Christmas
They keep us safe and sound
There are angels in our town
There are angels in our town
Just take a look and you will see
They're walking all around.**

BRIDGE

Take a look it will astound you angles here at Christmas time.
There not from the clouds above
They're just friends of yours and mine.
Give love and feel the joy it brings.
Find the gift in simple things.
Be Someones angle!
Angels In Our town

Our teachers are the best.
Our age care workers too..
The volunteers that silently do this and that for you...
Sometimes the heros go unsung. Some angles don't have
wings.....
when they're standing right in front of you
It makes you want to sing...

**There are angels in our town
There are angels in our town
We give them thanks at Christmas
They keep us safe and sound
There are angels in our town
There are angels in our town
Just take a look ...
and you will see....
They're walking all around.**

KEY CHANGE

**There are angels in our town
There are angels in our town
We give them thanks at Christmas
They keep us safe and sound
There are angels in our town
There are angels in our town
Just take a look ...
and you will see....
There are angles in our town.**
